

PUBLIC HEALTH INTERNSHIP OPPORTUNITY

ImpACTivista™ Internship Program: R2PHTC Student Practicum

Deadline for submission: April 14, 2022.

Opportunity

Internship with IMPACTIVO™ under the HRSA Region 2 Public Health Training Center (R2PHTC) Student Practicum Program.

IMPACTIVO is looking for interns majoring in:

Public Health, Demography or Health Services Evaluation.

Introduction

IMPACTIVO™, LLC. is an impact-driven health consulting firm committed to transforming health systems. IMPACTIVO™ offers training experiences to public health graduate students and professionals in Puerto Rico.

This year IMPACTIVO™ is accepting applications from public health graduate students for three **(3) positions** in the **Impactivista™ Internship Program: R2PHTC Student Practicum** in:

- Data collection and analysis for community needs assessment
- Instructional design for Public Health educational material
- Evaluation of community needs assessment
- Webinars technical assistant
- Project management and strategic planning
- Literature review and writing draft for public health proposal

Background

Our consulting firm offers integrated solutions to empower leaders in the health and social sector with the knowledge, resources, data, structure, and technology necessary to transform their organizations within a profitable, sustainable, and high-quality patient-centered model. IMPACTIVO™ enables connections that catalyze change.

As the **Region 2 Public Health Training Center** local performance site in P.R., our mission is to enhance the current and future public health workforce's ability to effectively deliver the Essential Public Health Services (EPHS) to the populations of New York, New Jersey, Puerto Rico, and the U.S. Virgin Islands. Approximately, 25,000 public health workers in state and local health departments provide the EPHS in Region 2. In order to fulfill this mission, the Center works directly with each partner health department to tailor and target its efforts to meet the training needs of public health workers.

Specifically, the Center:

- Assesses the public health workforce's needs at each affiliated health department and assists in the planning and development of training programs to meet identified needs
- Trains the public health workforce through face-to-face and distance-based learning opportunities
- Arranges collaborative projects for faculty members and MPH students to enhance public health services to medically underserved communities
- Establishes and strengthens field placements for MPH students in public health departments to ensure the growth and knowledge of the future public health workforce.

Student Practicum Project Deliverables

1. Data analysis reports
2. Evaluation instruments and questionnaires
3. Educational materials like presentations, videos, and one-pagers.
4. Draft of public health proposals
5. Final Practicum Experience presentation and report

Scope of Work

The selected candidates will collaborate with the IMPACTIVO™ team in diverse activities:

1. Participate in onboarding process to know and familiarize with the purpose of the program, all the deliverables and expectations. Also, to discuss all the rules as R2PHTC and Impactivo intern.
2. Data analysis
3. Reporting
4. Participate in trainings
5. Develop educational content
6. Participate in weekly follow-up meetings
