

PUBLIC HEALTH INTERNSHIP OPPORTUNITY

ImpACTivista™ Internship Program: R2PHTC Student Practicum

Deadline for submission: November 15th, 2023.

Opportunity

Internship with IMPACTIVO™ under the HRSA Region 2 Public Health Training Center (R2PHTC) Student Practicum Program.

IMPACTIVO is looking for interns majoring in:
General Public Health, Health Education, or Biostatistics

About Impactivo

IMPACTIVO™, LLC. is an impact-driven health consulting firm committed to transforming health systems. IMPACTIVO™ offers training experiences to public health graduate students and professionals in Puerto Rico.

This year IMPACTIVO™ is accepting applications from public health graduate students for **three (3) positions** in the **Impactivista™ Internship Program: R2PHTC Student Practicum** in:

- Logistics for Impactivo Leadership Institute
- Research assistance for Community Health Needs Assessment
- Instructional design for public health educational material
- Webinar technical support
- Project management and strategic planning
- Health communication
- Public health policy engagement
- Literature review and writing drafts for public health proposals

Background

Our consulting firm offers integrated solutions to empower leaders in the health and social sector with the knowledge, resources, data, structure, and technology necessary to transform their organizations within a profitable, sustainable, and high-quality patient-centered model. IMPACTIVO™ enables connections that catalyze change.

As the **Region 2 Public Health Training Center** local performance site in P.R., our mission is to enhance the current and future public health workforce's ability to effectively deliver the Essential Public Health Services (EPHS) to the populations of New York, New Jersey, Puerto Rico, and the U.S. Virgin Islands. In order to fulfill this mission, the Center works directly with each partner health department to tailor and target its efforts to meet the training needs of public health workers.

Specifically, the Center:

- Assesses the public health workforce's needs at each affiliated health department and assists in the planning and development of training programs to meet identified needs.
- Trains the public health workforce through face-to-face and distance-based learning opportunities.
- Arranges collaborative projects for faculty members and MPH students to enhance public health services to medically underserved communities.
- **Establishes and strengthens field placements for MPH/DrPH students in public health departments to ensure the growth and knowledge of the future public health workforce.**

Scope of Work

The selected candidates will collaborate with the IMPACTIVO™ team in diverse activities:

1. Onboarding process to get to know the program, deliverables, and expectations for R2PHTC/Impactivo interns
2. Develop an engagement template for webinars and instructional design content
3. Create educational materials for social media and other platforms
4. Logistic and data analysis of assessments
5. General support on project implementation
6. Reporting
7. Trainings
8. Weekly team meetings

Student Practicum Project Deliverables

1. Data analysis reports
2. Public Health topics presentations
3. Public Health readings panel
4. Health Care virtual and on-site conferences
5. Evaluation instruments
6. Educational materials like presentations, videos, and one-pagers
7. Webinar assistance
8. Drafts of public health proposals
9. Final practicum experience presentation and report

Knowledge and Skills Required

- Excellent communication skills
- Fully bilingual in English and Spanish with fluency writing and speaking
- Knowledge and competency with computers
